

Mohannad Milhem

Haifa, Israel | +972-54-2341808 | mohannad.milhem1201@gmail.com

Objective

Software Developer with 3 years of experience building scalable, secure, real-time systems, including mission-critical web and mobile applications developed during military service in the IDF. Backed by strong **computer science** fundamentals from the **Technion**, with hands-on expertise across the stack and a passion for clean code and solving real-world problems. Open to full-time or part-time opportunities.

Experience

2020-2022 (3 years) | Software Development Team, IDF – C4I Sector

Military Real-Time Monitoring and Response System

- Led development of a real-time military web app for field data monitoring and rapid response.
- Built a custom bot to send emergency push notifications based on critical events.
- Designed and implemented **microservices architecture** for scalable, efficient data handling.
- Technologies used: **JavaScript (Microservices)**, **Python (Bot)**, **MongoDB**.

Border Proximity Warning System

- Developed an Android app to track real-time soldier locations and send border proximity alerts
- Integrated a third-party tool for efficient distance calculation between coordinates
- Technologies used: **Android**.

Internal Military Task Management System

- Developed a secure, Jira-like SaaS app for military task tracking and collaboration
- Implemented hierarchical unit structure with dedicated cloud locations
- Enabled soldiers to open tickets and leaders to provide solutions.
- Technologies used: **React**, **Node.js**, **MongoDB**

2023-Present | Instructor and Instructional Coordinator | Meetarim

- Developed and taught computer-related courses, including computer science principles, algorithms, Micro:bit programming, Python software development. Fostering student enthusiasm for technology.
- learning by coaching instructors on effective teaching techniques, leading in 40% increase in positive feedback and student registration.

Technical Skills

Technologies	Microservices, Cloud Applications, RESTful APIs
Programming Languages	TypeScript, Python, Java, C++
Databases	MongoDB, SQL, PostgreSQL, MySQL
Frameworks and tools	Node.js, React, Next.js Git, Docker, Express.js
AI Tools	Claude, Copilot, ChatGPT
Soft Skills	Leadership, Collaboration, Critical Thinking, Problem-Solving, Adaptability, Mentoring
Languages	English (Fluent), Hebrew (Fluent), Arabic (Mother tongue)

Education

Technion – Israel Institute of Technology

- Completed core computer science courses: Algorithms, Data Structures, OOP, Networking, Operating Systems, Computer Architecture.
- Participated in a 1-year project developing a secure, scalable web app for mentorship.
- Led a team to develop a web app connecting community researchers with Technion professors
- Built a React dashboard with integrated email communication via Microsoft SMTP
- Implemented secure access using Keycloak for authentication
- Technologies used: **JavaScript**, **React**, **Microsoft SMTP**, **Keycloak**.
